

# MT BACHE LOMA PRIETA+ FIREWISE

## Our Mission | Firewise Community | Participation

### Our Mission

A sustainable future for our community, protecting lives, homes, and our environment

Wildfire Resilience Through:

- Wildfire readiness to safely evacuate our human and animal residents and equip firefighters with access to water and safe staging areas
- Home hardening and Zone 0 defense to reduce ember ignition risk
- Defensible space maintenance, protecting forest and riparian ecosystems

### Why Participate?

In 2025, Santa Cruz County reported 116 active communities (2<sup>nd</sup> highest in the nation!), \$20M invested, 27k+ acres maintained, 359k hours spent on wildfire readiness

*Reporting this data shows our firefighters, leaders, and insurance industry that we are doing the work for a more sustainable future!*

To participate, simply visit our website to start logging your wildfire mitigation activities

[www.pulsepoint.org/](http://www.pulsepoint.org/)
- Register to CruzAware,  
[cruzaware.genasys.com/portal/en](http://cruzaware.genasys.com/portal/en) to receive emergency alerts for Santa Cruz County
- Evacuation Zones CRZ-E039 & E042**
- Equine Evac,  
[www.equineevac.com/](http://www.equineevac.com/)

## Highlights in 2025

- Hosted Firewise Informational Booth at Fire Department BBQ in June, sharing home hardening resources and evacuation planning information

**With CAL FIRE's support, we published an online Community Water Map for Emergency Responders and posted QR code links to it around our community**

- Facilitated early access to the Spring Chipping Program and enjoyed free chipping of sizable brush piles! One resident reported piles being missed by the chipping crew. We followed up with the program coordinator and, should this happen again, let us know as soon as possible! The crew will be sent out again for any missed piles.
- Reported a combined \$225k of time (\$33/hr) and investment for home hardening, defensible space, maintenance, and wildfire education!

## Focus in 2026

- Keep the momentum going! We are so proud of our logged investment in wildfire readiness. Thank you all and please continue!
- Reach out to new neighbors and share how easy and beneficial it is to participate in Firewise
- Review evacuation plan with experts and local leaders considering recent devastating wildfires in our state. To participate in this effort, please contact us via email
